

## POSITION ANNOUNCEMENT

Date: JANUARY 2019

Position: **BUSINESS ANALYST**

Responsibilities: As a Business Analyst, you will be responsible for creating and implementing a process of using analytics to evaluate and measure the impact of internal programs and other existing initiatives, build queries or models of internal and off-line data to complete analytical requests, identify opportunities to calculate and measure social impacts. Additionally, you will work in partnership with our leadership team to target most responsive stakeholders for surveying campaigns and assist with data integrity, and conduct research to identify additional business opportunities for the Organization.

Qualifications & Education: Successful candidate will have a bachelor's degree or higher in Mathematics, Business, Research and Evaluation or a related quantitative field, strong written communication and computer skills and a proven track record of success identifying and implementing unique data analytic strategy to drive overall organizational growth. Strong analytical skills, problem solving are required; along with a strong understanding of measuring social impact and SROI.
